

**REMARKS**

Favorable reconsideration of the present application is respectfully requested in view of the following remarks. In the Notice, it is asserted that Figures 3D, 10D and 10E are contained in the drawings but not listed in the Brief Description of the Drawings in the specification.

The Substitute Specification of January 21, 2003 has been amended to address these issues. No new matter has been added.

In addition, this Reply includes an amendment to include the PCT International Application information on page 1. It is noted that the same amendment was made in the Preliminary Amendment filed on December 20, 2000. The information was inadvertently left out in the Substitute Specification of January 21, 2003. Thus, this is merely a request to correct the record and does not constitute new matter. Applicants apologize for any confusion that may have occurred.

Applicants respectfully request that the amendments to the specification be approved.

Should there be any outstanding matters that need to be resolved, it is respectfully requested that Hyung Sohn (Reg. No. 44,346) be conducted in an effort to expedite prosecution in connection with the present application.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,
